November 2011	Tarascon, France	Meeting with the Tarascon Commune and the University of Montpellier and local stakeholders to disseminate the FIM FRAME project results
December 2011	France	Translation of guidance document into French

- **WP1 report - The effectiveness and robustness of emergency plans for floods**
- **WP2 report - Comparison of currently available tools and enabling technologies for the emergency planning of floods**
- **WP4 report – Case studies: England, France and the Netherlands**
- **Guidance document for applying the framework – Draft for consultation**
- **Final report**

- An assessment of flood emergency plans in England and Wales, France and the Netherlands, *Natural Hazards*, Volume 58, Number 1, July 2011 , pp. 341-363(23)
- Tools to improve the production of emergency plans for floods – are they being used by the people that need them? *Journal of Contingencies & Crisis Management*
- Peer reviewed paper to be produced on the framework
- A comparison of the causes, effects and aftermaths of the coastal flooding of England in 1953 and France in 2010 *Natural Hazards Earth Systems Science*, 11, 2321-2333, 2011
- A comparative analysis of the loss of life during two recent floods in France: The sea surge caused by the storm Xynthia and the flash flood in Var, *Natural Hazards*

www.fimframe.net

The screenshot shows the 'Dissemination' page of the FIM FRAME website. At the top, there is a navigation menu with 'Home', 'Project', 'Partners', and 'Dissemination'. The main heading is 'Dissemination'. Below this, there is a section titled 'FIM FRAMEWORK Dissemination' with the subtext 'FIM FRAME reports and publications are published here:'. To the left of the text are three small images: a flooded town, a person wading through floodwaters, and a large sandbagged breach in a dike. The text on the right lists several publications and reports, each with a link and a brief description. At the bottom, it says 'Last updated: March 2011'.
